This activity has received funding from the European Institute of Innovation and Technology (EIT), a body of the European Union, under the Horizon 2020, the EU Framework Programme for Research and Innovation

EXplORE is an EIT Raw Materials-funded project in exploration, aiming creating a MSc exchange programme in exploration involving AGH University of Science and Technology, Luleå University of Technology, University of Oulu and Technische Universität Bergakademie Freiberg together with exploration industry. Exploration geoscientists will be educated in how to create exploration business and understanding the market conditions. By adding the necessary components of entrepreneurship in exploration and student and teacher exchange we will provide the students with the knowledge and skills to boost exploration in Europe.
